Re: Application control number 10/601,060

The subject patent application languished for a period before being evaluated. In the meantime, I have relocated from Mountain View, California to Moab, Utah. In the process, I have apparently confused my copies of the application. As a result, I don't have a copy of the version sent to you.

This is to request that a copy of the application you have reviewed be sent to me so that I can retype it into my computer.

If you can make this happen, I will complete my response in a timely manner.

Thank you,

Robert Thomson
